Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of document should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives or www.iec.ch/members_experts/refdocs).

ISO and IEC draw attention to the possibility that the implementation of this document may involve the use of (a) patent(s). ISO and IEC take no position concerning the evidence, validity or applicability of any claimed patent rights in respect thereof. As of the date of publication of this document, ISO and IEC had not received notice of (a) patent(s) which may be required to implement this document. However, implementers are cautioned that this may not represent the latest information, which may be obtained from the patent database available at www.iso.org/patents and <https://patents.iec.ch>. ISO and IEC shall not be held responsible for identifying any or all such patent rights.

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT) see www.iso.org/iso/foreword.html. In the IEC, see www.iec.ch/understanding-standards.

This document was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 35, *User interfaces*.

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at www.iso.org/members.html and www.iec.ch/national-committees.

Introduction

For a serviced office that is defined as a part of third workplace, there are a variety of service forms and usage patterns. Consistency between the service form and the mode of use of its user and the service form and the mode of use provided is highly important. This document investigates and reports the current situation of serviced offices by using use cases to develop an international standard that defines icons intended for use on search sites.

Information technology — User interfaces — Use cases of serviced offices

1 Scope

This document illustrates the use cases of serviced offices among the third workplaces used for flexible working hours and places.

2 Normative references

There are no normative references in this document.

3 Terms and definitions

For the purposes of this document, the following terms and definitions apply.

ISO and IEC maintain terminology databases for use in standardization at the following addresses:

- ISO Online browsing platform: available at <https://www.iso.org/obp>
- IEC Electropedia: available at <https://www.electropedia.org/>

3.1

telework

remote work

working outside the *main office* (3.5) using information and communications technology (ICT)

3.2

workplace

place where intellectual production activities, production and office work are carried out

3.3

third workplace

workplace (3.2) other than the primary place of work (*main office* (3.5)) and the secondary place of work (home)

3.4

serviced office

office managed by a facility management entity, where services are provided to users based on a contract of use

Note 1 to entry: A serviced office can be paid for or free of charge.

3.5

main office

workplace (3.2) to which the worker belongs

3.6

satellite office

workplace (3.2) located outside the *main office* (3.5)

Note 1 to entry: A satellite office is a place that fulfils the same role as the *main office* (3.5) of the company or the group and is set up for the exclusive use of the company or the group.

3.7

cyber office

virtual office

workplace (3.2) located in virtual space that is implemented with ICT

3.8

partitioned type office

serviced office (3.4) with individual workspaces divided by separators

3.9

box type office

serviced office (3.4) with enclosed workspaces divided by walls and ceilings

Note 1 to entry: A box type office is shaped like a telephone booth.

3.10

room type office

serviced office (3.4) as a closed work area that can be used exclusively

3.11

open type office

serviced office (3.4) as an open work area that is not separated by walls or other barriers

3.12

shared office

workplace (3.2) where multiple companies share the same space rather than only one company using it as its own space

3.13

coworking place

workplace (3.2) that intends to promote people-to-people exchanges, where a worker shares facilities and equipment with people who do not belong to the same organization such as a company

Note 1 to entry: A worker can work independently.

3.14

workcation

activities that utilise telework and provide opportunities to stay in a *third workplace* (3.3) for leisure and experience things other than work, while continuing to work in the *main office* (3.5)

4 Third workplace

4.1 Overview

[Figure 1](#) shows relation among telework, third workplace and serviced office in terms of working place. The third workplace is defined as a workplace other than the primary place of work (main office) and the secondary place of work (home), and therefore it also includes the satellite offices. However, this document concentrates on serviced offices, which are workplaces managed by a facility management entity and where services are provided to users based on a contract of use, among third workplaces.

Figure 1 — Relation among telework, third workplaces and serviced offices

A concept of the use of serviced offices is also shown in Figure 2. From the perspective of using the serviced offices, users include not only people in general, but also specific people such as the elderly, persons with disabilities and persons working with children, and the use cases include daily work, touch down work or collaborative work. The shared offices are equipped with a variety of facilities such as partitioned type office, box type office, room type office and open type office, which are selected according to the use cases of daily work, touch down work and collaborative work.

Figure 2 — Concept of serviced offices

4.2 Market size

Figure 3 shows the market forecast for number of serviced offices worldwide^[1]. Serviced offices are on the rise globally and are expected to develop rapidly from 2022 onwards, with an annual growth rate of 21,3 %.

Key

X year

Y number of serviced offices worldwide

Figure 3 — Market forecasts for number of serviced offices worldwide

Figure 4 shows the market forecast for number of people using serviced offices worldwide^[2], which estimates that around 5 million people will be working in serviced offices by 2024, an increase of 158 % compared to 2020.

Key

X year

Y number of people using serviced offices worldwide

Figure 4 — Market forecasts for number of people using serviced offices worldwide

Demand for serviced offices is expected to grow rapidly from [Figures 3 and 4](#).

NOTE The source is described as a "coworking space", but the definition in this document is "serviced office", so it is described as such.

5 Use cases of serviced offices

5.1 Typical scenarios of the uses of serviced offices

[Table 1](#) lists the typical scenarios of the use cases for serviced offices, together with their contents. [Annex A](#) shows actors for use cases with related information. [Annex B](#) presents a diagram of use cases for serviced offices.

Table 1 — Use cases of serviced offices and details

Category	Label	Details
daily work (concentrated work)	work	Perform the works that need to be completed that day in the quiet, work-focused environment of a serviced office, using the services provided by it (see B.1).
	meeting	While the user is out of the office, using the services provided by the serviced office in there; and — meet alone with a colleague in the office, — meet with a colleague in the office, joining with another colleague. (B.3, B.5)
	rest	Eating and drinking away from your seat in between work in serviced offices (see B.8)

Table 1 (continued)

Category	Label	Details
touch down work	mail correspondence	Checking and replying to incoming mail while the user is out of the office and using the services provided by the serviced office at there (see B.2).
	meeting	While the user is out of the office, using the services provided by the serviced office in there; and — meet alone with a colleague in the office, — meet with a colleague in the office, joining with another colleague, — meetings with customers. (B.3 , B.4 , B.5)
	printing	Reviewing and printing documents sent from the office for submission to customers while the user is out of the office and using the services provided by the serviced office at there.
	document disposal	Reviewing and disposing of documents to be submitted for customers sent from the office while the user is out of the office and using the services provided by the serviced office at there.
	rest	Eating and drinking away from their seat between works in the serviced office (see B.8).
collaboration work	individual	Users work in a large, relaxing open space surrounded by sofas and furniture, using the services provided by the serviced office. In between, they have a drink in hand from the drinks service corner provided in the workspace and chat with new people they meet to explore some ideas for their work (see B.6).
	event	Participate in events organized by the serviced office; and to — meet new people, — exchange ideas with other participants and create ideas and other activities (B.6).
	rest	Eating and drinking away from the seat in between work in the serviced offices (see B.8).

5.2 General use cases

5.2.1 General

The following are examples of facilities and equipment services required for general users (persistent attributes) to carry out daily works and touch down work (e.g. mail processing).

- Facilities: Internet connection (actor [A.2.1](#)), furniture (actor [A.2.1](#)), air-conditioning (actor [A.2.2](#)), lighting equipment (actor [A.2.2](#)), toilet (actor [A.2.2](#));
- Equipment: electrical power supply (actor [A.3.1](#)), infection control products (actor [A.3.2](#));
- Services: disinfection.

5.2.2 Variation of user's work

Examples of additional facility and equipment services depending on the type of user's work are given below.

a) Writing and submitting daily reports and documents (concentrated work):

- Facilities: desk with partitions (actor [A.2.1](#)), telephone box style meeting booths for web conferencing (actor [A.2.1](#)), multifunction peripheral (actor [A.3.1](#)), shredders (actor [A.3.1](#));

- Equipment: large monitor (actor [A.3.1](#)), cables (actor [A.3.1](#)), stationery (actor [A.3.1](#)), battery chargers (actor [A.3.1](#));
- Services: none.
- b) Internet (web) conferencing:
 - Facilities: telephone box style meeting booths for web conferencing (actor [A.2.1](#)), conference room (actor [A.2.1](#));
 - Equipment: power strip (actor [A.3.1](#)), cable (actor [A.3.1](#)), headset (for phones and other devices) (actor [A.3.1](#)), large monitor (actor [A.3.1](#)), microphone speaker (actor [A.3.1](#)), projector (actor [A.3.1](#)), screen (actor [A.3.1](#)), laser pointer (actor [A.3.1](#)), equipment for visualising voice volume (actor [A.2.2](#)), whiteboard (actor [A.3.1](#)), marker pen (actor [A.3.1](#)), stationery (actor [A.3.1](#));
 - Services: none.
- c) Sales activities (used by several people with customers):
 - Facilities: conference room (actor [A.2.1](#));
 - Equipment: large monitor (actor [A.3.1](#)), projector (actor [A.3.1](#)), screen (actor [A.3.1](#)), laser pointer (actor [A.3.1](#)), whiteboard (actor [A.3.1](#)), marker pen (actor [A.3.1](#)), stationery (actor [A.3.1](#));
 - Services: none.
- d) Meetings with colleagues (use with more than one colleague):
 - Facilities: conference room (actor [A.2.1](#));
 - Equipment: large monitor (actor [A.3.1](#)), projector (actor [A.3.1](#)), screen (actor [A.3.1](#)), laser pointer (actor [A.3.1](#)), whiteboard (actor [A.3.1](#)), marker pen (actor [A.3.1](#)), stationery (actor [A.3.1](#));
 - Services: none.
- e) Collaboration:
 - Facilities: conference room (actor [A.2.1](#)), open lounge (actor [A.2.2](#)), coffee counter (actor [A.2.2](#));
 - Equipment: large monitor (actor [A.3.1](#)), projector (actor [A.3.1](#)), screen (actor [A.3.1](#)), laser pointer (actor [A.3.1](#)), whiteboard (actor [A.3.1](#)), marker pen (actor [A.3.1](#)), stationery (actor [A.3.1](#));
 - Services: coordination (actor [A.4.1](#)).
- f) Fabrication:
 - Facilities: large desk (actor [A.3.3](#));
 - Equipment: 3D printer (actor [A.3.3](#)), sewing machine (actor [A.3.3](#)), DIY tools (actor [A.3.3](#));
 - Services: instruction on use of equipment (actor [A.4.2](#));
- g) Spend one's leisure time:
 - Facilities: open lounge (actor [A.2.1](#)), coffee counter (actor [A.2.1](#)), space for eating and drinking (actor [A.2.1](#)), vending machine (actor [A.2.2](#)), resting room (actor [A.2.5](#));
 - Equipment: headset (for phones and other devices) (actor [A.3.1](#)), large monitor (actor [A.3.1](#)), equipment for visualising voice volume (actor [A.2.2](#)), book (actor [A.3.2](#)), magazine and newspaper (actor [A.3.2](#));
 - Services: free drink (actor [A.4.1](#)).
- h) Use as part of workcation activities:
 - Facilities: add as described in a) to h), depending on type of work;

- Equipment: add as described in a) to h), depending on type of work;
- Services: workcation concierge (actor [A.4.1](#)), coordination (actor [A.4.1](#)).

5.3 Additional services

5.3.1 Additional services for persistent attributes change

The following are examples of facilities, equipment and services that are added to perform routine and touch down work (e.g. mail processing) when persistent attributes change.

NOTE See [A.1.1](#) for persistent attributes.

a) Elderly persons:

- Facilities: multifunction peripheral for barrier-free access (actor [A.3.1](#)), desk with elevating function (actor [A.2.4](#));
- Equipment: large monitor (actor [A.3.1](#)), resting room (actor [A.2.5](#));
- Services: assistance (actor [A.4.3](#)), instruction in operation of ICT equipment (actor [A.4.3](#)).

NOTE Assistance can provide the services for both workers themselves and their companions.

b) Language related:

- Facilities: signatures in major languages (actor [A.2.3](#));
- Equipment: book (actor [A.3.2](#)), magazine and newspaper (actor [A.3.2](#)) in all major languages;
- Services: interpreter (actor [A.4.4](#)).

c) Persons with disability:

- Facilities: multifunction peripheral for barrier-free access (actor [A.3.1](#)), desk with elevating function (actor [A.2.4](#)), toilet for person with disability (actor [A.2.5](#)), simple cooking facility (actor [A.2.5](#)), resting room (actor [A.2.5](#)), accessible parking space (actor [A.2.5](#)), dog park (toilet for serviced dog) (actor [A.2.5](#));
- Equipment: reader with magnification (actor [A.3.4](#)), braille printer (actor [A.3.4](#)), braille sign (actor [A.3.4](#)), text reader (actor [A.3.4](#)), PCs with braille word-processing function (actor [A.3.4](#));
- Services: guide in a building (actor [A.4.5](#)), sign language (actor [A.4.5](#)), communicating in writing (actor [A.4.5](#)), counselling (actor [A.4.5](#)).

5.3.2 Additional services for temporal attributes change

The following are examples of facilities, equipment and services that are added to perform routine and touch down work (e.g. mail processing) when temporal attributes change.

NOTE See [A.1.2](#) for temporal attribute.

a) Persons with children:

- Facilities: toilet for children (actor [A.2.6](#)), nap room (actor [A.2.6](#)), shower room (actor [A.2.6](#)), nursing room (actor [A.2.6](#)), nappy changing room (actor [A.2.6](#)), resting room (actor [A.2.5](#)), stroller storage area (actor [A.2.6](#));
- Equipment: toy (actor [A.3.6](#)), playground equipment (actor [A.3.6](#));
- Services: feeding and lactation (actor [A.4.6](#)), changing nappies (actor [A.4.6](#)), care for sick children (actor [A.4.6](#)), food for children (actor [A.4.6](#)), making baby food (actor [A.4.6](#)), toddler classes (learning programme) (actor [A.4.6](#)), childcare consultation (actor [A.4.6](#)), helping homework (actor [A.4.6](#)), picking

up (actor [A.4.6](#)), courtesy bus (actor [A.4.6](#)), after-school care for school children (school-age classes, learning programmes) (actor [A.4.6](#)), follow-up on park play (actor [A.4.6](#)).

b) Pregnant women:

- Facilities: resting room (actor [A.2.5](#));
- Equipment: doughnut-shaped cushion (actor [A.3.7](#)), lap blanket (actor [A.3.7](#));
- Services: maternity consultation (actor [A.4.7](#)).

c) Injured persons:

- Facilities: resting room (actor [A.2.5](#));
- Equipment: none;
- Services: assistance (actor [A.4.3](#)).

STANDARDSISO.COM : Click to view the full PDF of ISO/IEC TR 18720:2024

Annex A (informative)

Actor list

A.1 User

A.1.1 Persistent attribute

[Table A.1](#) shows users as actors and their persistent attributes.

Table A.1 — Users as actors and their persistent attributes

Actor name		Actor description	Remarks
general user (default)			
attribute	subscriber	— corporate contract (company employee, freelancer) — individual contract — no contract (hot desk)	
	elderly person	Users aged 65 and over	
	non-fluent speaker	— second foreign language — users whose local language differs from their native language	
	person with disability	Users with the potential to hinder the accessibility of the interaction between the user and the system	— lower or upper limb disability — visual disability — hearing disability — mental disability

NOTE There are also combination of several attributes, such as 'elderly person with disabilities'.

A.1.2 Temporal attribute

[Table A.2](#) shows the users as actors and their temporal attributes.

Table A.2 — Users as actors and their temporal attributes

Actor name	Actor description	Remarks
person with children	Users with children	Children include pre-school and school children
pregnant woman	Users who are pregnant women.	Some people use wheelchairs
Injured person	Users who are wounded	Excluding the seriously injured

NOTE There can also be combinations of several attributes, such as 'pregnant woman with child' or 'injured elderly person'.

A.2 Facilities

A.2.1 Common facilities — Directly related to users' work

[Table A.3](#) shows the facilities which are common to the office. They are directly related to users' work as actors.

Table A.3 — Common facilities directly related to users' work

Actor name	Actor description	Remarks
furniture	Desks and chairs, etc.	
private rooms or telephone box style meeting booths for web conferencing	Used by one person. Used when both your speech and the other person's speech is not be heard by others. No possibility of being overheard.	It is also used for works where you do not want others to be able to peek in on you.
conference room	Used when it has already been decided to do so today and is to be used by more than one person. Used when both your speech and the other person's speech is not be heard by others.	
high stool	Used when both your speech and the other person's speech can be heard by others and you want to finish the work in a short time.	Not suitable for long working hours.
open lounge	Large room without partitions. Used when both your speech and the other person's speech can be heard by others, and when a certain amount of time is needed. Meeting new people. A comfortable type of desk and chair are also provided.	
desk with partitions	Partitions are placed between neighbouring desks to reduce the possibility of peeping. Some types also have a partition at the back. (The back is half-hidden. Image of a bank's individual consultation desk)	
internet connection	Wired and wireless connection forms are possible and both forms have speed and security as attributes.	
VPN	A dedicated network with a virtual leased line on the Internet that can only be used by certain persons.	

A.2.2 Common facilities — Not directly related to users' work

[Table A.4](#) shows the facilities which are common but not directly related to users' work as actors.

Table A.4 — Common facilities, not directly related to users' work

Actor name	Actor description	Remarks
coffee counter	Allows work in a relaxed atmosphere. Used as an alternative if the place to work was not available.	
space for eating and drinking	Space to relax while eating	
sound masking	Background noise that is deliberately played into a room to make it difficult to hear small sounds from neighbouring rooms or distant sources.	
equipment for visualising voice volume	Devices that warn according to the loudness of the voice.	
air-conditioning	Equipment for regulating temperature, humidity and air flow, and for air purification (ventilation).	
lighting equipment	Equipment that illuminates and brightens the room with light.	
toilet	Ordinary toilet	
multi-purpose toilet	Toilet for various purposes	
studio	Used for delivery of seminars, filming of artworks, etc.	It would be useful to have a staff who can show the user how to use the equipment.
vending machine	Vending machines for drinks and snacks	
parking lot	Places users can park their vehicles	
parking place for bicycles	Places where users can park their bicycles	
place of worship	Room for prayer	
smoking area	Areas where smoking is separated from non-smokers.	Passive smoking is taken into consideration.
locker	A place to store baggage and other personal items.	It would be useful to have lockers where large items can be stored, e.g. for business travellers
security buzzer, emergency alarm	In the event of an emergency, the user can press a button to report the situation to a pre-registered security company, police authority or fire brigade.	For example, reporting a suspicious intruder.
kitchen	Users can cook.	

A.2.3 Language related facilities — Directly related to users' work

[Table A.5](#) shows the facilities which are language related and directly related to users' work as actors.

Table A.5 — Facilities which are language related, directly related to users' work

Actor name	Actor description	Remarks
signatures in major languages	Facility information and equipment manuals in the main languages for users whose local language is different from their native language.	

A.2.4 Facilities for persons with disability — Directly related to their work

[Table A.6](#) shows the facilities which are used for persons with disability and directly related to their work as actors.

Table A.6 — Facilities for persons with disability, directly related to their work

Actor name	Actor description	Remarks
desk with elevating function	Desks with adjustable desk height	

A.2.5 Facilities for persons with disability — Not directly related to their work

[Table A.7](#) shows the facilities which can be necessary for persons with disability but not directly related to their work as actors.

Table A.7 — Facilities for persons with disability, not directly related to their work

Actor name	Actor description	Remarks
toilet for person with disability	Specially designed toilets to better accommodate people with physical disabilities	
ostomate-friendly facility	Toilet with features that facilitate the disposal of excreta and other waste materials.	Ostomates can dispose of waste, change and fit stoma appliances (pouches), wipe and clean the skin around the stoma, and wash and dispose of clothing and used appliances.
simple cooking facility	Kitchens with simple cooking facilities, such as the ability to understand hot water and heat food.	Microwave oven, small gas cooker, hot-water supply, etc.
resting room	Beds that can be used to lie down and are used by users to take a nap or calm themselves down.	It is intended for persons with disability, but can be used by users of all attributes.
accessible parking spaces	Car parks with enough space for wheelchair users to get in and out easily	
dog park (toilet for serviced dogs).	A place where the service dog owner can remove the tether and allow the dog to exercise and defecate freely in an isolated space under supervision of the service dog's owner.	

A.2.6 Facilities for persons with children — Not directly related to their work

[Table A.8](#) shows the facilities which are used for persons with children but not directly related to their work as actors.

Table A.8 — Facilities for persons with children, not directly related to their work

Actor name	Actor description	Remarks
nap room	Used for children's naps	
toilet for children	Toilets that are appropriate for the size of the child so that he or she can use it alone.	
shower room	Users dispose of children's waste themselves.	Needed if there is no service provided by staffs. Not needed if there is a service provided by staffs.
nursing room	Users breastfeed their own children. Users feed their own children	Needed if there is no service provided by staffs. Not needed if there is a service provided by staffs.
nappy changing room	Users change their own children's nappies	Needed if there is no service provided by staffs. Not needed if there is a service provided by staffs.
stroller storage area	Users can place stroller.	It is useful to have a covered area or a roof that is not exposed to rain.

A.3 Equipment

A.3.1 Common equipment — Directly related to users' work

Table A.9 shows the equipment which are common and directly related to users' work as actors.

Table A.9 — Common equipment, directly related to user's work

Actor name	Actor description	Remarks
headset (for phones and other devices)	Communicate speech each other clearly	Not needed if private rooms or meeting rooms are used.
large monitor (TV, monitor, etc.)	Enlarge the documents on your computer.	Information on size and resolution would be helpful.
microphone speaker	Communicate speech each other clearly	Needed if the meeting room is used by more than one person.
screen	Projecting materials	Needed when using a large meeting room for several people.
projector	Projecting materials	Needed when using a large meeting room for several people.
whiteboard	Write down ideas, etc. that come up during the meeting.	
marker pen	marker pen for writing on whiteboards.	
stationery	Ballpoint pens, scissors, post-its, glue, staples, etc.	
laser pointer	Used to point at materials, diagrams, etc. projected on a screen using a laser beam.	
electrical power supply	Source of electrical energy. Where power to run electrical equipment is taken in.	
power strip	An appliance for supplying power to a location remote from an outlet on a wall etc. or to several appliances. Extension cords.	
cable	Cable, such as HDMI, that connect ICT equipment and transmit video, audio and operation signals.	
battery charger	Device used to charge batteries. In particular, a device that converts AC to DC for charging.	For both smartphones and PCs.
rental computer	PCs available to users within their serviced office.	
multifunction peripheral	Office equipment that combines the functions of photocopier, printer, image scanner and facsimile machine in one device.	Convenient and safe if speed and security are guaranteed. Barrier-free access is preferred for the elderly person and person with disability.
shredder	Machines that cut up unwanted documents into small pieces for confidentiality purposes.	

NOTE Equipment have the attributes 'available or not available', 'permanent or rental' and 'free or paid'.

A.3.2 Common equipment — Not directly related to users' work

Table A.10 shows the equipment which are common but not directly related to users' work as actors.

Table A.10 — Common equipment, not directly related to users' work

Actor name	Actor description	Remarks
infection control products	Disinfectant alcohol, acrylic plates, etc.	
books, magazines, newspapers	Providing information tailored to the demographics of users.	For example, trade press

NOTE Equipment have the attributes 'available or not available', 'permanent or rental' and 'free or paid'.

A.3.3 Equipment for fabrication — Directly related to users' work

[Table A.11](#) shows the equipment which are used for fabrication and directly related to users' work as actors.

Table A.11 — Equipment for fabrication, directly related to users' work

Actor name	Actor description	Remarks
3D printer	Machines that can create objects based on three-dimensional digital models.	It is useful to have a staff who is ready to instruct the users how to use the equipment.
large desk	Space to spread out and work with large cloths, large papers, etc.	It is better that more than enough space is provided around the desk.
drawing board (drawing table, drafting table, or architect's table)	Drafting tables specifically designed for drafting	It would be useful to have staff who can show you how to use the equipment.
sewing machine	Machines for sewing textiles, paper, leather, etc. together.	It would be useful to have staff who can show you how to use the equipment
DIY Tools	Electric drills, electric saws, hammers, measuring tools, spanners, pliers, nippers, metal scales, etc.	It would be useful to have staff who can show you how to use the equipment
high intensity lighting fixtures	Used when looking at small objects
