

AEROSPACE INFORMATION REPORT

SAE AIR1351G

Issued 1974-08
Revised 2009-02

Superseding AIR1351F

Manufacturers' Identification of Aerospace
Electrical and Electronic Wiring
Devices and Accessories

RATIONALE

News symbols added to update listed manufacturers and to list symbols for manufacturers qualifying to AS39029, MIL-PRF-29504, and MIL-C-83522. Editorial changes are included.

1. SCOPE

This SAE Aerospace Information Report (AIR) covers the general requirements for and the listing of manufacturers identification that appear on electrical/electronic wiring devices and accessories as required by individual product specifications.

1.1 Purpose:

This document provides users of electrical/electronic wiring devices means of identifying the manufacturer by use of distinct marking of the device.

2. REFERENCES

The following list of specifications requires compliance to AIR1351 and the requirements listed herein. This list may not be definitive. For any changes/modifications, the manufacturers have 120 days from date of issue of AIR1351 to comply.

2.1 SAE Publications

Available from SAE International, 400 Commonwealth Drive, Warrendale, PA 15096-0001, Tel: 877-606-7323 (inside USA and Canada) or 724-776-4970 (outside USA), www.sae.org.

- AS7928 Terminals, Lug, Splices, Conductor: Crimp Style, Copper, General Specification For
- AS23190 Straps, Clamps, and Mounting Hardware, Plastic and Metal for Cable Harness Tying and Support
- AS39029 Contacts, Electrical Connector, General Specification For
- AS81714 Terminal Junction System (TJS), Environment Resistant, General Specification For

2.2 U.S. Government Publications

Available from the Document Automation and Production Service (DAPS), Building 4/D, 700 Robbins Avenue, Philadelphia, PA 19111-5094, Tel: 215-697-6257, <http://assist.daps.dla.mil/quicksearch/>.

- MIL-PRF-29504 Termini, Fiber Optic Connector, Removable, General Specification For
- MIL-C-83522 Connector, Fiber Optic, Single, Terminus, General Specification For

SAE Technical Standards Board Rules provide that: "This report is published by SAE to advance the state of technical and engineering sciences. The use of this report is entirely voluntary, and its applicability and suitability for any particular use, including any patent infringement arising therefrom, is the sole responsibility of the user."

SAE reviews each technical report at least every five years at which time it may be reaffirmed, revised, or cancelled. SAE invites your written comments and suggestions.

3. REQUIREMENTS

3.1 Usage

To be considered for listing, the manufacturer will provide evidence that the identification is currently being used to identify a product approved to a military specification or industry standard.

3.2 Location

Manufacturers identification will be located as specified in the applicable product specification. If location is not specified, the identification will be marked in an area visible without disassembly of the device.

3.3 Method

Marking method of the device is at the manufacturers option unless specified herein, AIR1351, or in the product specification. Standard methods such as metal impression, etching, laser, molded-in and ink markings are acceptable. Other methods, shall meet the permanency requirements of the applicable specification. Ink markings of fiber optic termini are not approved.

3.4 Legibility

Manufacturer's identification will be legible under 4X maximum magnification.

4. LISTING

4.1 Application

An application for listing, changing or deleting manufacturer's identification is provided as Figure 2. Identification markings will be of suitable size and clarity for reproduction into this document.

4.2 Manufacturer's Identification

The following pages list the manufacturer's identifications requested and accepted as meeting the requirements for inclusion in this document. Specific design is at the discretion of the applicant and is not part of the acceptance criteria for this document.

Information for those manufacturers listed herein, the Defense Data agency, when furnished with the CAGE information, can provide addresses, phone and FAX information.

Defense Solutions Group Inc.

1-817-563-5661 (Local)
FAX: 1-817-563-5662
www.defensedata.com
support@defensedata.com - technical support

4.3 Recertification

Listed manufacturers are required to respond to a recertification request at three year intervals beginning in 1996. Failure to respond may result in removal from this document.

5. MANUFACTURER'S SYMBOLS

See Figure 1. Symbols are not drawn to scale.

6. NOTES:

- 6.1 Listing of manufacturer's identification letters, symbols and marks herein is not to be construed as approval by SAE or its members. SAE does not approve or disapprove such markings. Some of the markings by different manufacturers as shown herein are, in fact, considered to be too similar and/or complex for reduction. Manufacturers, when choosing markings are encouraged to utilize identification that is significant, distinctive, permanent, and easily identifiable. This document is intended to list only permanent markings used on actual components.
- 6.2 A change bar (|) located in the left margin is for the convenience of the user in locating areas where technical revisions, not editorial changes, have been made to the previous issue of this document. An (R) symbol to the left of the document title indicates a complete revision of the document, including technical revisions. Change bars and (R) are not used in original publications, nor in documents that contain editorial changes only.
