

AEROSPACE MATERIAL SPECIFICATION

SAE

AMS 2645K

Issued JUN 1950

Revised FEB 1995

Superseding AMS 2645J

Submitted for recognition as an American National Standard

FLUORESCENT PENETRANT INSPECTION

This specification has been declared "SUPERSEDED" by the Aerospace Materials Division, SAE, as of February 1995. The requirements of this specification are embodied in the latest issue of ASTM E 1417.

The requirements of the latest issue of ASTM E 1417 shall be fulfilled whenever reference is made to this specification.

PREPARED UNDER THE JURISDICTION OF AMS COMMITTEE "K"

SAE Technical Standards Board Rules provide that: "This report is published by SAE to advance the state of technical and engineering sciences. The use of this report is entirely voluntary, and its applicability and suitability for any particular use, including any patent infringement arising therefrom, is the sole responsibility of the user."

SAE reviews each technical report at least every five years at which time it may be reaffirmed, revised, or cancelled. SAE invites your written comments and suggestions.
